The screenshot shows a 'Mobile Link' window with a title bar containing 'Mobile Link' and 'OK' and 'Cancel' buttons. Below the title bar is a tabbed interface with 'sync' and 'server' tabs. The 'server' tab is active, displaying the text 'Adjust the connection settings for the selected server below'. A dropdown menu shows 'AvantGo server' with a downward arrow. To the right of this dropdown is the label 'SERVER NAME'. Below the dropdown are four input fields: 'Address:' with 'sync.avantgo.com' (labeled 'SERVER ADDRESS'), 'Port:' with '80' (labeled 'PORT WHERE IT LISTENS FOR REQUESTS'), 'Username:' with 'jostern', and 'Password:' with 'xxxxx'. A bracket groups the 'Username' and 'Password' fields with the label 'YOUR USER NAME AND PASSWORD FOR THE SERVER'. Below these fields are two checkboxes: 'Enabled' (checked) and 'Connect secure' (unchecked). Below the checkboxes are three buttons: 'Add', 'Remove', and 'Reset'. To the right of the 'Add' button is the label 'TAP OK WHEN FINISHED'. At the bottom of the window is a status bar with a 'Start' button, two empty square buttons, a clock showing '8:51a', and a home button. Below the 'Start' button is the label 'TAP HERE TO CREATE A NEW SERVER ENTRY'.
